④

Base x 1

Hardware

A x 1 (Plastic Washer)

B x 1 (Washer)

C x 1 (Nut)

D x 1 (Spanner)

What you need

Safety

MAX 60W E27
220-240v ~ 50Hz

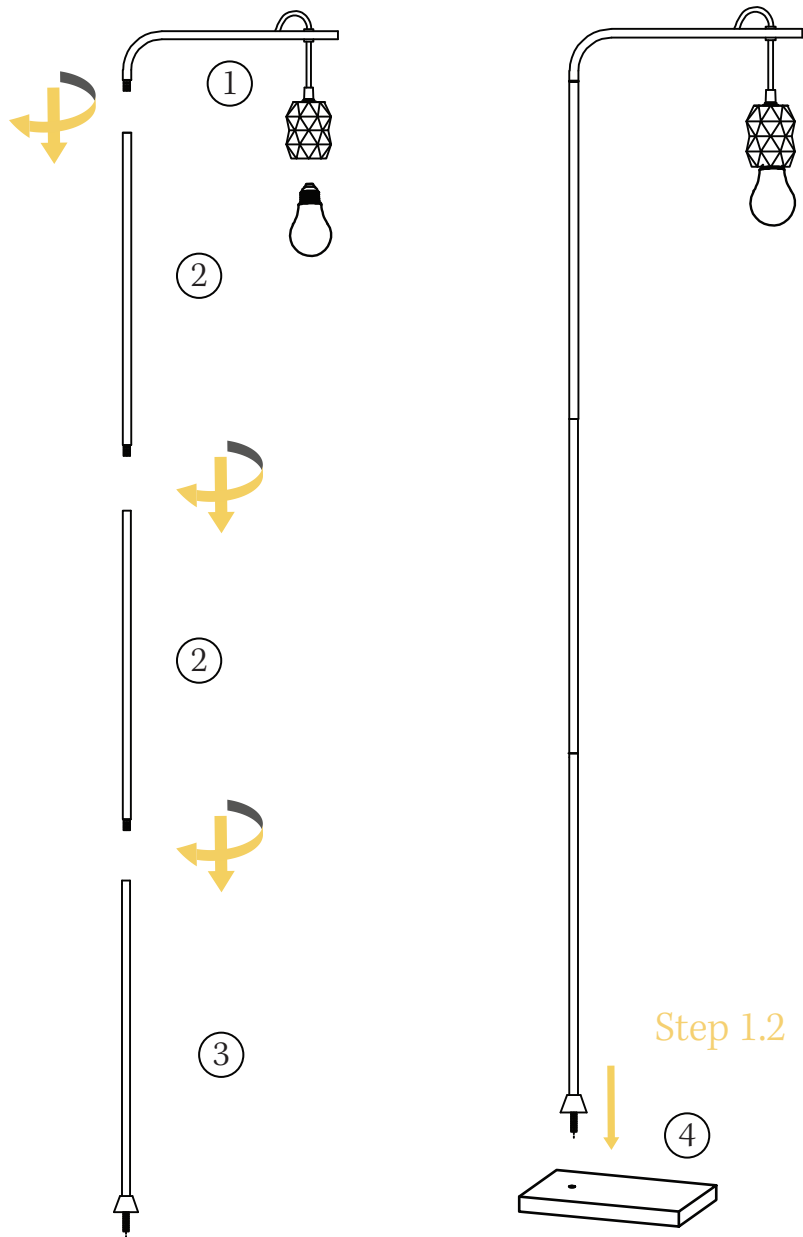

1. For indoor use only
2. Follow instructions carefully. Any deviations may be hazardous, or void your warranty.
3. Damaged power cords must be replaced by a professional.
4. Never use a bulb of a greater wattage than recommended.
5. To replace the bulb, unplug the lamp from its power source and allow it to cool first. Then change the bulb, plug it in and switch it on.
6. Periodically check and re-tighten all screws and fasteners.
7. Switch off and wipe down your lamp with a clean cloth as needed.
8. Firmly secure all pieces. Small parts may present a choking hazard.
9. Bulb is not included.

Step 1

Step 1.1 Align the top pole (1) with a middle pole (2) and firmly screw them together. Continue with another middle pole (2) and finally the bottom pole (3).

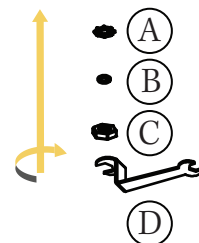

Step 1.2 Attach the formed pole to the base (4). Fit a plastic washer (A), a washer (B) then a hex nut (C) to the bolt and tighten with the spanner (D).

A x 1

B x 1

C x 1

D x 1

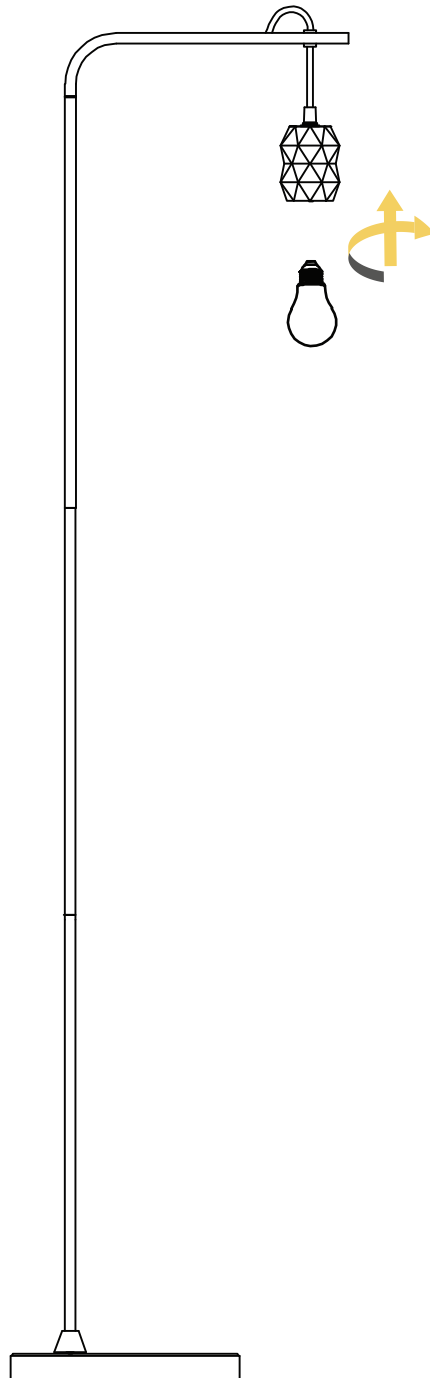

Step 1.1

Step 1.2

Step 2

Gently screw the correct bulb (not included) into the bulb socket.

Step 3

Check if all parts are secure.
Enjoy! We hope your new lamp lights up your life.
